Toglisudore

P

Technical Data Sheet

Method of use:

TogliSudore is used undiluted by spraying onto the soiled area of the garment prior to washing. If necessary use a spotting brush. For best results leave the product to work for ten minutes by folding the garment upon itself to stop the active ingredients evaporating.

It can be used also in perc. We suggest to dry the garment after its use.

Technical features

pH 1% = 7,0 – 8,0
Density 20°C = 0,950 – 1,050g/ml
Ionicity : Non ionic, Anionic
