

## Technical Data Sheet

### Pre-spotting agent for hydrocarbon dry cleaning

- Excellent water binding properties
- Optimal results for removing water based stains
- No graying on treated areas
- High rinsability with solvent
- Suitable for all textile types
- Does not create foam

PreCarbon

F

## Technical Data Sheet

### Method of use:

Pre Carbon is used undiluted, by spraying onto the soiled area of the garment prior to washing.

It is recommended that the PreCarbon is NOT applied with a brush to avoid excessive dosage and cost.

### Technical features

pH 1% = 6,5 – 7,5

Density 20°C = 0,800 – 0,850g/ml

Ionicity : Non- ionic, Anionic e Cationic

PreCarbon
