**Essence**

## Technical Data Sheet

### Method of use for water:

HygienFresh® Essence is used during the last rinse, with a low water level.

**Dosage:** Add 1 – 3 ml of HygienFresh® Essence per kg of dry garments with the machine fully loaded to the last rinse.

**Method of use for dry cleaning:** HygienFresh® Essence is used with machine fully loaded, preferably during the second bath, either by manually dosing the button trap or with an automatic dosing unit.

### Dosage:

**Continuous distillation:** 2 – 3 ml of HygienFresh® Essence per kg of dry garments

**Manual distillation:** 3 ml of HygienFresh® Essence per kg of dry garments during the first bath with clean solvent. 1 ml per kg of garments during the next baths before the solvent is distilled.
